Local Sharing

With local sharing, you can preview your Sketch document on any device—be it a phone, a tablet, a Windows PC, a smart fridge, or anything else with a web browser. Browsers waiting for access to Mirror now appear in the popover, where you can securely control access.

Once you click on Mirror, a popover will appear providing you with a list of available devices you can connect to, along with an address you can use to share your documents for preview. Once you've shared the address, any browser viewing the link will be visible in the popover.

The image shows the Craft CMS interface. On the left, there's a sidebar with options like 'Duplicate', 'Inside Selection', 'Specific Count', 'Vertical', 'Horizontal', 'Row count', 'Gutter', and 'Assets'. The main area shows a 'LIBRARY' section with tabs for 'Shared' (which is selected) and 'Document'. Below that is a 'All categories' dropdown and a 'categorized' section. On the right, there's a 'Photos' section with 'Folder', 'Link', and 'Unsplash' buttons, and a 'Select a Folder' dropdown. At the bottom, there's a 'SHARE THE VIDEO' button.
